Writ of Scire Facias

Comes now Kurt Martin as the united states in rem et al., libertas, upon Writ of Scire Facias wherein Andrew P. Seiwert, apparent representative of Freddie Mac aka "Federal State", res judicata, acknowledges and affirmed Kurt Martin as the united states. Through Action of Law, was not able to post Kurt Martin lawfully, although with knowledge and aforethought continued to move against the united states, under Color of Law. Because Andrew P. Seiwert chose to argue statute, rather than actual law, he is also to be held in contempt, as per the 1832 Nullification Proclamation, signed and effectuated by Andrew Jackson, barring appeal solely based on statutory or legislative intent, rather than use of Admissions of Evidence. See: Attorney Work Product Doctrine.
